Lottie: vocals and keytar
Jac: vocals and 12-string acoustic
Nate: backing vocals and bass
Alex: electric guitar
Yusuf: drums

Gear requirements:

A full drumkit including breakables (hat, ride and crash will suffice). We are happy for you to mic the kit however you prefer.
Both guitarists and the bassist need a power supply for their pedals.
XLR cables and DI boxes to run the keytar and 12-string through the PA.
Alex (electric guitar) and Nate (bass) are happy to use either the in-house amps or the PA, as both have amp sims in their pedals.
Lottie and Jac both have wireless IEMs that should receive separate aux sends.
